

GeDiPNet Cluster 163 -- Top Shared Genes

Curated genes (disease\_gdp) linked to 2 or more of this cluster's member diseases, most widely shared first. Data as of: 2026-10-09 03:15:01. · Rows: 7 · Generated: 2026-10-09 04:53:13

| Gene    | Member Diseases Linked | Cluster Size | Linked Diseases                                                                                                                                                                                         |
|---------|------------------------|--------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| KL      | 8                      | 9            | Cerebral embolism; Hypercalcemia; Hypercalcemic tumoral calcinosis; Hypercalciuria; Hyperphosphatemic tumoral calcinosis; Idiopathic infantile hypercalcemia; Intracranial embolism; Tumoral calcinosis |
| CYP24A1 | 4                      | 9            | Hypercalcemia; Hypercalciuria; Idiopathic infantile hypercalcemia; Kidney and ureter calculus                                                                                                           |
| SLC34A1 | 4                      | 9            | Hypercalcemia; Hypercalciuria; Idiopathic infantile hypercalcemia; Kidney and ureter calculus                                                                                                           |
| FGF23   | 3                      | 9            | Hypercalcemic tumoral calcinosis; Hyperphosphatemic tumoral calcinosis; Tumoral calcinosis                                                                                                              |
| GALNT3  | 3                      | 9            | Hypercalcemic tumoral calcinosis; Hyperphosphatemic tumoral calcinosis; Tumoral calcinosis                                                                                                              |
| CASR    | 2                      | 9            | Hypercalcemia; Kidney and ureter calculus                                                                                                                                                               |
| PTH     | 2                      | 9            | Hypercalcemia; Hypercalciuria                                                                                                                                                                           |
